Committees Manager

- Delivers all the e-government Priority Services Outcomes for Democratic Services
 - Manage forward plans, agenda items, minutes & decision making
 - Multi-level security - publish restricted information & ensure no lost papers
 - Seamless integration with your web site & DDA compliant
- Extend functionality with other components of the Web Labs eDemocracy suite
 - Browser based with friendly user interface
 - Extensive configuration options available
 - Hosted & shared services options
 - Ongoing support, training and development included in contracts

Committees manager has been developed in co-operation with councils and enables this powerhouse of an EDRMS product to quickly automate agendas, reports and minutes.

Take care of attendance records for those coming to the meetings, access to secure documents and web page for the search/viewing of agendas, minutes and supporting public & private documents.

Provide citizen focused government and open decision-making, leading to accountability and inclusiveness!
