## Consultation Master

- Create intuitive online consultations
- Generate public reports to your website & in PDF format
- Display on-demand data in graphical formats such as pie-charts, bar graphs
- Seamless integration with your web site & DDA compliant
- Browser based with friendly user interface
- Extensive configuration options available
- Hosted & shared services options
- Ongoing support and development included in contracts
- Solutions built on Microsoft .NET framework with ASP.NET platform services

Consultation Master is an easy to use consultation builder that allows user departments to create, publish & analyse their own consultations online with no technical knowledge.

Create and analyse consultations to reduce costs of IT and Communications departments.  
Improve your service provision and collect alternative views from citizens.  
Encourage the engagement of citizens with direct feedback and trend analysis.
