Petitions Manager

- Compliance with current legislation*
- Complete petition to resolution and reporting cycles
 - Parameter driven rule sets
- Seamless integration with your web site & DDA compliant
 - Browser based with friendly user interface
 - Extensive configuration options available
 - Hosted & shared services options
- Ongoing support and development included in contracts
- Solutions built on Microsoft .NET framework with ASP.NET platform services

Petitions Manager was first developed in conjunction with the Local Government Association in 2005 and then after the Governments recent announcement it has been rebuilt in consultation with some of our Local Authority customers and the Microsoft Citizen Service Platform.

Hold an inquiry, commission research and involve your community; all made easy with Web Labs ePetitions.

*Local Democracy, Economic Development and Construction Act 2009
